

BUFFALO™

TurboUSB Utility ***Macintosh Installation***

www.buffalotech.com

The Buffalo TurboUSB utility can greatly improve the data transfer rates to and from your Buffalo USB hard drive. Other USB devices are not affected by TurboUSB software.

Installation

To install TurboUSB on your Macintosh, insert your DriveNavigator CD in your Mac's CD drive. Open the CD and double-click on *TurboUSB.dmg*. Open *TurboUSBHDD* and choose *TurboUSBHDDInstall*.

TurboUSBHDD

TurboUSBHDDInstall

This warning will appear. Click *Continue* to continue.

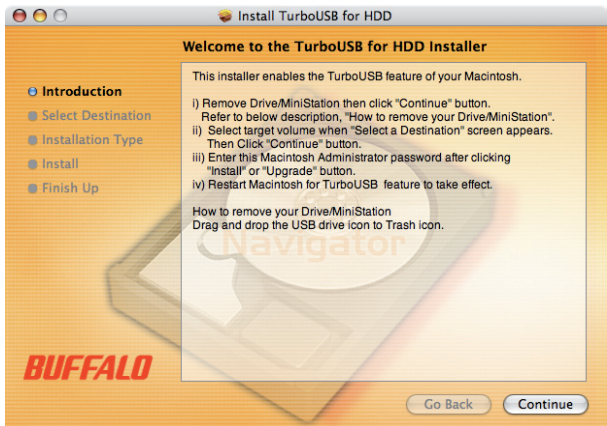

This package contains a program that determines if the software can be installed. Are you sure you want to continue?

If you're not sure about the source of this package, click Cancel to prevent it from running the program and installing the software.

Cancel

Continue

Click *Continue*.

Select your main hard drive and click *Continue*.

Click *Install*.

Enter the username and password for your Mac.

Click *Restart* to finish the installation.

Is TurboUSB enabled?

Now that TurboUSB is enabled, TurboUSB devices' icons will appear differently on your desktop.

Disabling TurboUSB

To disable TurboUSB, insert your AirNavigator CD. Double-click on *TurboUSB.dmg*. Open *TurboUSBHDD* and choose *TurboUSBHDDUnInstall*.

Step through the wizard. This will completely uninstall TurboUSB from your Mac.
