BUFFALO™

Supported UPS Devices for TeraStation

Omron UPSs

Supported TeraStations: TS-RXL/R5, TS-WXL/1D, TS-WXL/R1, TS-XL/R5, TS-HTGL/R5, TS-RHTGL/R, TS-XEL/R5, TS-TGL/R5.

Model #	Type of UPS	Type of cable connector	Supported cables
BZ35T	Standby	USB	stock cable (attached)
BZ50T	Standby	USB	stock cable (attached)
BZ50LT	Standby	USB	stock cable (attached)
BX35F	Standby	USB	stock cable (attached)
BX50F	Standby	USB	stock cable (attached)
BX50FW	Standby	9 pin D-sub	BUC26
BX75SW	Standby	9 pin D-sub	BUC26
BX25XT	Standby	9 pin D-sub	stock cable (attached)
BX50LS	Standby	9 pin D-sub	stock cable (attached)
BN50XS	Line Interactive	9 pin D-sub	SC05 and BUC10
BN75XS	Line Interactive	9 pin D-sub	SC05 and BUC10
BN100XS	Line Interactive	9 pin D-sub	SC05 and BUC10
BN140XS	Line Interactive	9 pin D-sub	SC05 and BUC10
BU50SW	Online	9 pin D-sub	BUC26
BU75SW	Online	9 pin D-sub	BUC26
BU100SW	Online	9 pin D-sub	BUC26
BU150SW	Online	9 pin D-sub	BUC26
BX35XFV	Standby	9 pin D-sub	BUC26
BX50XFV	Standby	9 pin D-sub	BUC26
BX35XFS	Standby	9 pin D-sub	BUC26
BX50XFS	Standby	9 pin D-sub	BUC26
BY50FW	Standby	9 pin D-sub	BUC26
		USB	stock cable (attached)
BY75SW	Standby	9 pin D-sub	BUC26
		USB	stock cable (attached)

Omron UPSs support 1:1 connections between the NAS and the UPS, so auto shut-down software is not required.

Some of Omron's USB UPSs may not work properly with the TeraStation. Please contact Omron for more details.   According to Buffalo's testing, the following serial numbers may not work properly:

BZ35T: 61506090000110G or earlier
BZ50T: 61606090000110G or earlier

BZ50LT: 61706100000109G or earlier
BX35F: 68006090267408G or earlier
BX50F: 68106080235107G or earlier

SC05 is an option cable and BUC10 is for the I/F card. These two cables should be used together.

Listed supported cables have been tested by Buffalo. Omron sells them separately from the UPS. Please contact Omron for information about supported cables and where to purchase them.

APC UPSs

Supported TeraStations: TS-RXL/R5, TS-WXL/1D, TS-WXL/R1, TS-XL/R5, TS-HTGL/R5, TS-RHTGL/R, TS-XEL/R5, TS-TGL/R5.

APC UPS Divider

Supported TeraStations: TS-IXL/R5, TS-RIXL/R5, TS-IGL/R5, TS-RIGL/R5, TS-RXL/R5, TS-WXL/1D, TS-WXL/R1, TS-XL/R5, TS-HTGL/R5, TS-RHTGL/R5, TS-XEL/R5, TS-TGL/R5.

Model #	Type of UPS	Type of cable connector	Supported cables
AP9207	NA	9 pin D-sub	940-0020 is included with PowerChute Business Edition SSPCBEW1SJ

Supported cables have been tested by Buffalo Technology. Cables not listed as "included" must be purchased separately from APC. Contact APC for more information on these cables and where to purchase them.

The APC UPS Divider doesn't come with a UPS, which must be purchased separately.
